EXCHANGE/SALES AUTHORITY USED FOR ARMY WATERCRAFT PROGRAMS

TACOM's Deployment/Support Equipment Commodity Business Unit (CBU) and Army Watercraft Systems Product Manager (PM), in partnership with Modern Technologies Corporation (MTC) and the Defense Reutilization and Marketing Service (DRMS), have successfully implemented the sale provisions of the recently revised Exchange/Sale Authority. This authority enables the Army to sell non-excess equipment displaced as a result of a modernization program and use the sale proceeds to fund the cost of replacement equipment. This program is being managed under the provisions of the Federal Property Management Regulation, 41 CFR 101-46 and the DOD Materiel Management Regulations, DOD 4140.1-R.

Under a pilot program, inflatable 3-Man reconnaissance boats were sold to test the process. After the process was in place, TACOM sold 20 vessels at Ft. Eustis, VA for a value in excess of \$1.8M, and will use the funds to augment underfunded replacement equipment.

The point of contact for this article is Mr. Michael McGee, Deputy PM Watercraft, and Ms. Suzanne Holbrook, Chief, Troop Support Group, (810) 574-6491.
